ABOUT ME

CS student building production-grade full-stack and AI-powered applications. Shipped Voxis (live TTS platform) and Vibe AI (AI app builder). Published open-source npm CLI create-trpc-setup — automates tRPC v11 setup for Next.js, used by developers worldwide. Focused on clean architecture, scalable backends, and real products.

SKILLS

- ❖ HTML, CSS, JavaScript (ES6+), TypeScript
- ❖ Frontend (React.js, Next.js, TailwindCSS, shadcn/ui, TanStack Query)
- ❖ Backend (Node.js, REST API, Prisma, tRPC, GraphQL)
- ❖ Database (PostgreSQL, MySQL, MongoDB)
- ❖ Authentication (JWT, OAuth, Next-Auth)
- ❖ **DevOps & Deployment (Docker, Kubernetes, AWS, Vercel, Railway)**
- ❖ Version Control (Git, GitHub)
- ❖ OpenAI (GPT), Gemini (Google), Grok (xAI), Anthropic (Claude)
- ❖ Computer Science Fundamentals: Data Structures & Algorithms (DSA), Problem Solving, Competitive Programming
- ❖ System Design: High-Level Design (HLD), Low-Level Design (LLD), Scalability, Microservices, Distributed Systems

EDUCATION

- ❖ Bachelor of Technology (B.Tech) – Computer Science & Engineering
Indrashil University — Expected (2026)
- ❖ Diploma in Computer Engineering
Excel Institute of Diploma Studies — Completed | CGPA: 8.01

INTERNSHIPS

❖ Full Stack Developer

AlpsLogic IT Solutions — Gandhinagar, Gujarat

- Built responsive UI components in React Native (Expo) improving user experience across Android and iOS screens
- Developed and integrated REST APIs using NestJS, enabling seamless frontend-backend communication
- Contributed to full-stack feature development - mobile UI (Expo) and backend services (NestJS)

❖ Web Development Intern

ZIDIO Development, Bengaluru | [September 2024 – December 2024]

- Developed and deployed responsive web applications using HTML, CSS, JavaScript, and React.
- Collaborated with a team to optimize the front-end performance, achieving a 15% faster page load time.
- Designed and implemented REST APIs to integrate front-end and back-end services seamlessly.
- Documented project workflows and assisted in the debugging and testing of application features.

ACADEMIC PROJECTS

❖ **Voxis – AI Powered Text-to-Speech Platform**

A modern AI-powered Text-to-Speech platform that converts text into natural, emotionally expressive speech with customizable voice parameters.

Stack: Next.js (App Router), React 19, TypeScript, tailwinds v4, tRPC, PostgreSQL, Prisma ORM, Clerk Auth, Cloudflare R2, Modal Serverless GPU

Features: Multi-voice TTS with emotionally expressive output, real-time preview, INR pricing, Cloudflare R2 storage

Deployment: Vercel

- Link: Voxis.dev

❖ **Vibe AI – Full-Stack AI Website & App Builder**

A no-code AI-powered platform that generates full-stack websites & apps using natural language prompts.

Stack: Next.js 15, React 19, Tailwinds v4, PostgreSQL, tRPC, E2B, OpenAI

Features: Real-time AI agent code generation, live previews, sandbox execution, instant deployment

AI-Powered: OpenAI & E2B integrated for intelligent, fast and flexible code outputs

Deployment: Vercel + Docker

- GitHub: [Repository](#)

❖ **Online Whiteboard - Online-whiteboard is a visual workspace**

Developed a full-featured Miro-style whiteboard enabling real-time collaboration, drawing, sticky notes, and organizational tools for remote teams.

Stack: React.js, Next.js 14, TailwindCSS, Convex, Clerk, Liveblocks

Features: Drawing tools, text, shapes, sticky notes, layers, undo/redo, keyboard shortcuts, real-time sync

Auth & Workspace: Clerk-based org auth, invites, favorites, and live updates across sessions

- GitHub: [Repository](#)

❖ **Full Stack E-Commerce + Dashboard**

A complete multi-vendor e-commerce platform with a CMS-style admin panel to manage multiple stores, products, orders, and analytics.

Stack: Next.js 13 (App Router), React.js, TailwindCSS, Prisma ORM, MySQL, Clerk Auth, Stripe, Shadcn UI

Features: Admin CMS for managing products, categories, filters, etc. | multi-vendor/store support | Stripe checkout & webhook integration | Role-based auth with Clerk | Sales analytics & revenue charts | Image uploads, filtering, pagination | Fully responsive UI

- Link: [Dashboard](#), [Store](#)
- Github: [Dashboard-Repo](#), [Store-Repo](#)

❖ **Next-Auth Advanced Authentication System**

A secure and scalable auth system using NextAuth v5 with social login, role-based access, 2FA, and protected routes/components.

Stack: Next.js 14 (App Router), React.js, TailwindCSS, Prisma, NextAuth v5 (Auth.js)

Features: Social login (Google, GitHub), credentials auth, email verification, forgot/reset password, 2FA, user roles (admin/user), protected API routes & server actions, modal-based login/register, and role-based UI rendering.

OPEN SOURCE

❖ **create-trpc-setup — npm CLI Tool**

Automates tRPC v11 setup in Next.js App Router projects

- v1.0.4 published on npm | 19+ weekly downloads
- Auto-detects Clerk/NextAuth, tsconfig aliases, src/ structure
- Generates 6 tRPC files + auto-patches layout.tsx
- GitHub: [Link](#) | npm: [Link](#)

SOFT SKILL

- ❖ Effective Communication
- ❖ Team Collaboration
- ❖ Problem Solving.

LANGUAGES

- ❖ Gujarati
- ❖ Hindi
- ❖ English
